UX/UI Designer with 4+ years of experience building structured, scalable web and mobile platforms. Experienced in designing data-heavy systems, optimizing multi-step processes, and collaborating within agile teams to ship production-ready solutions.

Work experience

Interonic Communication Pvt. Ltd. | UX/UI Designer

Jan 2022 - Present | 4 yr 2 mo

- Led end-to-end UX/UI design across ecommerce, logistics, and community platforms (web & mobile)
- Designed dashboards for transaction tracking, reporting, and operational monitoring
- Re-structured complex multi-step workflows to improve clarity and reduce friction
- Built reusable component systems to maintain cross-platform consistency and accelerate delivery
- Collaborated with product managers and engineers within agile sprint cycles from concept to release

Community Event Networking Platform (JITO)

- Designed networking platform serving 4,000–8,000+ members across 2–3 day business events
- Built session booking, meeting scheduling, member discovery, and in-app chat features
- Simplified time-bound booking flows to support rapid adoption across diverse age groups
- Digitized seat reservations and meeting coordination to reduce on-ground operational dependency

finlark.com

Clevbrain Technologies Pvt Ltd | UX/UI Designer

Feb 2021 - April 2021 | 3 mo

- Owned end-to-end UX/UI design for company website and brand system
- Designed scalable UI components for consistent cross-platform implementation
- Partnered with engineering to ensure accurate design translation into production
