EXPERIENCE

Finlark Technologies
Product Designer
Jan 2022 – Present

Led product design across ecommerce, real estate, and operations-heavy systems for multiple clients, turning fragmented workflows into structured, scalable products used in daily operations, including a community event app, a franchise ordering system, and an inventory management platform.

Simplified complex workflows and dashboards to improve clarity and reduce friction, while building reusable systems that sped up delivery and reduced design-to-development gaps.

Freelance Product Design
Billbroz
Jan 2026

Designed a billing and referral-driven system for small shop owners, focusing on simplifying daily sales tracking and enabling repeat customer engagement through lightweight, WhatsApp-friendly interactions. Structured the product to reduce manual effort in tracking customers and referrals while keeping the experience intuitive for low-tech users.

Freelance Product Design
Market Insights
Mar 2026

Designed a hyper-local decision-support tool for first-time shop owners and businesses expanding into new markets. Transformed fragmented signals like location data, footfall, and broker inputs into structured insights, enabling users to confidently evaluate whether a market is worth entering instead of relying on guesswork.

Freelance Product Design
Pharmacy Website
Feb 2025

Designed a digital experience for an independent pharmacy transitioning from offline to online, enabling customers to order medicines, request prescription refills, and book vaccinations for delivery or in-store pickup. Focused on simplifying critical healthcare flows while improving accessibility and retention.

Contributed to measurable growth, including **4,600+** organic visitors per month, a **48%** increase in prescription refill requests, and a **23%** increase in vaccine bookings.

Clevbrain Technologies Pvt. Ltd.
UX/UI Designer
Feb 2021 – Apr 2021

Designed company websites and foundational UI systems, working closely with developers to ensure accurate implementation and consistent user experience across platforms.

Leadership

Product & Design Thinking

Drove product direction by turning unclear ideas into structured, actionable solutions, aligning business goals with real, buildable outcomes.
